

TTS: Taxidermy & Trophy Solutions is an A-Z, one point-of-contact, hassle free service, guaranteeing you savings, so you can hunt more.

It covers: Collecting your trophies countrywide immediately after the hunt and transporting them to the taxidermy studio.

We verify they are what you hunted, all permits are in good standing and agree if and where any specific issues are to be noted with the trophies. Any problems are brought to your attention as soon as possible, where we then look for solutions. We'll import your trophies into South Africa if hunted across Africa.

Your trophies are mounted by one of our three contracted-in taxidermists, whose quality and experience we stand by. Much of their work is on display in *Afton Safari Lodge's* Selous Trophy Room.

We offer a choice of:

- Dip & pack – (to tan and mount back home)
- Fully tanned and skull capped – (if you want to mount back home)
- The full taxidermy of your trophies.

We stay abreast of the progress, keep you updated, ensuring you are completely satisfied well before the wood crating, ready for export.

For export, we give you a choice of:

- Ocean to the nearest port of entry - where it will be cleared, ready for delivery or you to collect.
- Air, using the services of our (or your preferred) import Agent, ready for collection or delivery.
- Air, where we assist you to do your own self-clearing.
- Door-to-door (FedEx) service.

Export related costs can be supplied as soon as we have your taxidermy requirements are available.

Turnaround time from receiving the deposit and trophies: 10 months for taxidermy, 4 months for dip & pack, 5 months for tanning.

TTS is a hassle free, one stop service.
